U.S. MARINE CORPS COMMEMORATIVE

In the South Pacific, in the closing days of World War II, a gallant contingent of U.S. Marines stormed the beaches of Iwo Jima. Some of the heaviest fighting of the war, much of it hand-to-hand, began in deadly earnest. After four bloody days, it was over. The Marines raised the American flag in victory above the summit of Mt. Suribachi.

For nearly 200 years, the U.S. Marines have been there ... whenever duty called. Often that has meant close combat. In those intense times, fighting men depend on each other and on their equipment for survival, and that survival often meant a military knife, one hand-crafted by the master cutlers of Camillus Cutlery.

Camillus built millions of knives for American servicemen in World War II, and our World War II Commemorative Series (begun in 1990) recalls those fighting knives and celebrates the dedication, valor and sacrifice of America's servicemen.

Introducing the third offering ...
Camillus Cutlery's USMC2.

USMC2
7" High Carbon Blade "blued" finish with 18K gold etch
12" Overall Length
18K Gold Plated Guard & Butt
Stained genuine leather handle
Solid Oak Display Case with Brass Plaque

CCC2

The lore, the excitement, the rich traditions of the American West have included courageous people, with special rifles and ammunition. The .30-30 Winchester was the first American, Small bore, smokeless sporting cartridge. Introduced in 1895, the .30-30 was available in the now-famous Model 94 lever action rifle.

The .30-30 is the second classic American cartridge to be commemorated in the Camillus ClassiC CartridgE™ series of limited edition collectable knives. Each CCC2 has genuine jigged bone handles with authentic .30-30 Winchester cartridge head shield with inert primer. The spey blade has an etch of the .30-30 cartridge while the Camillus ClassiC CartridgE™ logo is etched on the Turkish clip blade.

CCC2
